AGC ORGANIZES NATIONWIDE CORONAVIRUS (COVID 19) STAND DOWN FOR SAFETY

Thursday, April 9, 2020 the AGC of America is organizing a nationwide Coronavirus (COVID 19) Safety Stand Down. The purpose of the event is to ensure workers are being protected and taking proper precautions on the jobsite to protect themselves and others from potentially becoming infected. Everyone is encouraged to participate.

One of the ways in which you can participate is through COVID 19 related toolbox talks. Attached are 2 toolbox talks that may be used to get information out to your employees. Also attached are some posters to hang at the jobsite or in the office. Please remember if you do participate to follow proper CDC guidelines and maintain 6 feet of space between each person during the stand down and limit groups to no more than 9 people. Also, if you are documenting the event with a physical sign in sheet, only have the supervisor record names on the sheet instead of passing a sheet and pen around to help protect against potential contamination. Consider utilizing teleconferencing or other technology to safely hold events to get your information out.

For additional COVID 19 resources click on the yellow star at www.siba-agc.org. A sample plan for COVID-19 developed by Construction Industry Safety Coalition (CISC) and revised by the AGC of America can also be found by clicking on the yellow star.
